FINE SPUN COTTON.

"Sea Island cotton is the best kind," said a Southerner. "It is finer and silkier than any other cotton in the world. A pound of it can be spun into 4.770 miles of thread.

"For an experiment once in the Engner spun a pound of Sea Island cotton into a single thread 1,000 miles long.

"Then for another experiment he took another pound of cotton and spun it into as many hanks as he could get. He got 11,000 hanks in all, and the yarn in each measured 840 yards. Thus out of a pound of cotton 4770 miles of yarn was produced. This yarn, though, was too fine to be of any practical utility."-Philadelphia Bulle-

## ORIGIN OF THE CRAVAT.

At First a Wide Neck Band Worn by Austrian Cavalrymen.

While every man wears a cravat, there is probably not one in a thousand who could, in an offhand way, tell you how it came about that men first placed such an ornament about

The word cravat came into our language about 1636. Prior to that year a feature of the uniform of the Austrian cavalry was a wide band of coarse linen worn in folds around the neck under their short Hussar jackets. This cavalry organization was called the "cravate," its members being styled the "Cravates."

Later, in the seventeenth century Mr. E. P. Ellis left the city October 28. France recruited a regiment of cavalin company with Bishop Tyree, for ry adopting for it the uniform of the Muskogee, I. T., and will visit several Austrian regiment recruited in Croconferences with the Bishop. He will atia, calling it the Royal Cravattes. visit conferences in Mississippi with Later in England the word "cravat"

After the battle of steamkirk in Flanders, in 1692, an English officer brought home the "steamkirk," a long. flowing neckscarf edged with fine Flem- gation present. ish lace, the ends of which were drawn size. The neckwear of to-day is clear-Art Journal.

House, was quite ill the first part of SEWING ONE SEAM FOR 15 YEARS.

10-18-07

"The ease with which people can become habituated to any kind of uninteresting work, no matter how monotonous it is, may be seen every day in any shoe factory," says a gentleman connected with this St. Louis industry.

"In a shoe factory the division of labor is carried to the utmost possible extent. As a rule one operative performs one operation and no more. who for fifteen years has sewed the seam which begins at the right of the 428 & Fifth & Avenue & North. eyelets, runs to the top, then around and down on the other side. The machine works so rapidly that she actually spends almost as much time in picking up and laying down the shoe and adjusting it to the machine as is required to do the sewing, and this work she keeps up day after day dur- 115 Fourth Ave. N ing all the working hours. One might suppose the monotony of the task would wear on her health and spirits. but it does not seem to do anything of the kind. She is one of the most cheerful women in the factory."-Globe Democrat.

## VIOLIN AS A HAIR RESTORER.

It is now a scientifically proved fact that music exercises a great influence on the growth of the hair. It is with good reason that great musicians, such as Paganini, Liszt and Paderewski, are represented with a growth of hair which Absalom might have en-

Science has proved that stringed instruments have a favorable influence on the growth of the hair, while brass instruments act in the opposite direction. Every one has probably observed that a bald violinist is as rare as a bald horn player is common. Wood instruments, such as the flute, seem to have no pronounced influence either way.—Paris Paper.

CHURCH OF THE HOLY FAMILY. At the Church of the Holy Family last Sunday there were confirmed about sixty young men and women. Rishop Byrne conducted the services. He made a very interesting talk conterning the duty of the church and its members. The services were very incoesting. There was a large congre-
